

An Understated Dominance by Marina Vittori Chapter 2012

Chapter 2000

A large amount of explosives could not damage the bronze door at all, which is enough to prove its hardness.

It cannot be broken by brute force.

“Look around to see if there is any mechanism or anything like that.” Margaret frowned slightly.

“Yes!” the guard captain responded, and immediately led people to check around.

As a result, I searched the hall for a long time, but still found nothing.

“Miss Margaret, there is no need to waste your efforts. The solution to the mechanism is on this bronze door.”

At this time, Leo Alexander suddenly spoke.

“Oh? Does Captain Leo know the symbol on this door?”

Margaret turned around, with a bit of curiosity in his eyes.

“I have traveled all over the country for so many years. I have conducted in-depth research on various ancient monuments. It is not surprising that I know some special symbols.”

Leo Alexander held his head high, walked forward slowly, and said quite confidently: “If I read correctly, this underwater palace should have been built by the leader of the Zhongli Kingdom a thousand years ago. The tadpole-like symbols on it are the characters of the Zhongli Kingdom.” “I didn’t expect

Brother Leo to be so knowledgeable. You understand the culture so well, it’s amazing.” Kevin Snow gave a thumbs up and couldn’t help but praise.

He knew nothing about these things.

“Of course! Before my captain founded the Black Scorpion Team, he was a top student in archeology. No one knows the history of various eras better than him.” The short-haired woman said proudly.

“Hey, that’s all in the past tense. A hero doesn’t mention his former bravery.” Leo Alexander waved his hand pretending to be humble.

After being invisible for so long, it’s finally time for me to show my face.

“Captain Leo, since you know Zhong Liguó’s writing, is there a way to open this door?” Margaret asked tentatively.

“Of course it’s no problem.”

Leo Alexander walked to the bronze door and explained while stroking the various symbols: “According to the text above, the key point to open the door should be this ruby similar to an eye.”

Saying that, Leo Alexander put his hand on the ruby and pressed it hard.

With a “click” sound, the ruby sank an inch.

Then, Leo Alexander grabbed Ruby and turned it three times to the left and three times to the right.

After six turns to the left and right, the bronze door seemed to have touched some mechanism. The area in the middle suddenly began to rotate.

Every time you move it, it will make a “click” sound and shake off a little dust.

“Hahaha... it’s moving, the bronze door is moving!”

Seeing this scene, everyone looked overjoyed.

“As expected of Brother Leo, he is really capable!” Kevin Snow praised him.

“It has to be Team Xue! Even the bronze door that can’t be affected by explosives was easily solved. It’s amazing!” “

Inviting the Black Scorpion Team to help out is really worth the money!” “

... “

Leo Alexander couldn't help but feel a little carried away when he heard the praise from everyone.

His force level is not very powerful, but his brain is definitely good, otherwise he would not be able to lead the Black Scorpion team and prosper.

“Miss Margaret, how about it? I shouldn't have embarrassed you, right?” Leo Alexander raised the corners of his mouth with a bit of pride.

“Captain Leo is admirable in both civil and military skills.” Margaret nodded slightly.

I have to admit that Leo Alexander does have two skills.

“I can't say that I have both civil and military skills, but compared to some reckless men, I still have some brains.”

Leo Alexander said, and glanced at Dustin meaningfully.

So what if I can fight? After all, I'm just a brainless warrior. Shouldn't I have to rely on my intelligence if anything happens?

Just when Leo Alexander was feeling proud, something unexpected happened!
