

The Ex Husbands Revenge Chapter 2542

The Ex Husbands Revenge Chapter 2542-“That’s wonderful!” “Hugh, we didn’t think you could defeat Felton!”

“You were great!”

Recovering from the initial shock, Renee, Jensen, and Ariella were both overjoyed.

Though they did not know how Leon defeated Felton, they knew that Leon had a single finger.

It was no wonder that Leon insisted on staying to fight Felton.

He was not being reckless or foolish but had the power to win. The three of them underestimated Leon.

For Renee, she did not think much of Leon since she was only told that he was a vice president of Cynthion Group.

It was not until Leon purchased fifteen rare herbs with 287 million and presented multiple types of alchemical pills that she started respecting him.

Now, upon learning that Leon was talented in martial arts as well, she realized that she did not know half of what he was truly capable of.

Indeed, Felton and Hugo were two of the most brilliant martial artists in the younger generation. However, Leon merely used one finger to defeat Felton, which meant that he was at least more powerful than Hugo.

It would not be an exaggeration to say that no one in the younger generation could rival Leon.

This was even more shocking when Leon was a few years younger than Felton and Hugo.

For him to reach just a high level of achievement at such a young age, there were no limits to what he could do in the future.

Instantly, her impression of Leon changed drastically and she was deeply impressed by Leon's talent.

"Felton, there's such a thing called karma. I did nothing to you, yet you kept picking on me. It's about time that we settle the scores!" Leon scoffed and approached Felton maliciously.

"What are you going to do?" Sensing Leon's malicious intent, Felton's arrogant attitude was instantly replaced by fear.

"What do you think? You said you want to break my legs, right? I'll do exactly that to you!" Leon said coldly.

"What? You! You wouldn't dare!" Felton paled and lost his composure.

"You will find out if I dare to soon!" Leon sneered and continued to approach Felton, who was lying sprawled on the ground.

Each step he took sent chills down Felton's spine.
