Chapter 203

After the birthday event, Newton called his family doctor to check on Lauren out of worry. He felt relieved when the doctor reported that everything was fine with her.

In the corridor, two good-looking men leaned against the window sill. Jasper asked Landon for a cigarette, which he lit and took a long drag. The orange flame flickered between the billowing smoke,

"50 is Alice Alyssa Taylor, the unknown daughter of one of Winston Taylor's wives?" Landon felt that he was in a dream. The entire

was rather inconceivable.

"Yeah Jasper's fingers trembled when he flicked the ash.

Tucki Jasper, you hit the jackpot. How did you land this windfall? Landon patted Jasper's shoulder as his eyes sparkled. "You turned out to be Winston Taylor's ex-son-in-law by accident.

"Would you have taken off to greater heights if you didn't divorce her? With the backing of the Taylor Family, your dad and your evil stepmother would have to submit to you. You could do anything with the Beckett Group."

"The Beckett Group is firmly in my grasp even without Alyssa Taylor's help." Jasper puffed a ring of smoke and stared at Landon. "Do I look like a kept man to you?"

"Of course not. You were not born to be a kept man. You're a workaholic."

Jasper was dumbfounded upon hearing that.

"It's just a pity that you missed the good opportunity. You could have reached your goals earlier with the help of the Taylors!" Landon lamented.

Filled with empty regrets, Jasper snuffed out his cigarette. However, his motivation was different from how Landon perceived it.

"I cannot wrap my head around her decision to marry me."

“Same here. She could have done better marrying me than getting together with a bad-tempered, unromantic man who was in love with another woman.” Landon did not hold back his insults.

“Landon, did you really believe Winston would have approved of you? Did you think you were a good match for Alyssa?” Jasper looked hard at Landon, fighting against his urge to grab his friend by the neck.

“At least I’m not as petty as you. You questioned her character after you saw her with another man. Don’t you think I am more attractive to her in this aspect?”

Landon was rather amused. He added, “Oh, right. Do you remember how you gave her trouble when you saw her getting along with Jonah? You must have regretted saying those mean things to her!”

It was her fault for keeping her identity a secret from me.” His irritation flared at the mention of Alyssa’s identity.

She has no reason to tell you the truth, especially after the divorce. Plus, you wouldn’t have accused her of anything if you trusted her more. That’s why I never thought you would last long with her.

You had no feelings, no sense of responsibility, and no trust in her. I have nothing but respect for Ms. Alyssa. She put up with you for three years—1 wouldn’t have lasted a day.”

As an outsider, Landon was clear-eyed about Jasper’s relationship and was busy dissecting Jasper’s flaws.

Jasper pursed his lips tight. The veins on the back of his hand were bulging.

Landon gave Jasper a squeeze on the shoulder with a confident smile. “Bro, I learned a lesson from your mistake. I won’t go down the same path. Be it Alice White or Alyssa Taylor, I’ll win her heart. Wish me luck!”

Jet toast. Jasper shot daggers at Landon.

‘I’m on it! Distance makes the heart grow fonder, don’t you agree?” Before leaving, Landon leaned in and squinted at Jasper’s amusement. “You won’t turn a blind eye to what happened tonight. Right?”

Jasper was about to speak, but I cala peal num to it with indignance. Grandpa, I know you have been taking down on me and my family, but you can't measure a relationship with money!"

The Tarlurs might bench, but Jasper and I are in love. As his childhood sweetheart, I was by his side in the darkest time of his childhood. Alyssa cannot replace the bond we shared!"

She ran up to Jasper and lugged at the hem of his shirt. Jasper, say something!"

He cast a helpless and icy look at her. Despite his best attempts to recall bits and pieces of their childhood, his mind was blank. The precious memories from his childhood had faded into obscurity.

In the end the light went out of his eyes. His voice was laden with exhaustion and disappointment. "Lia, let's put a pause on our marriage."
