

# The Charismatic Charlie Wade Chapter 3929

Following this line of thought, Fei Kexin became more and more frightened.

She sat up from the bathtub all of a sudden, and exclaimed in a flustered low voice: “Mr. Luo is a six-star warrior. If he can’t see any cultivation level in Charlie, then there are only two possibilities, or Charlie is a little bit. There is no cultivation base, or it must be above the six-star warrior!”

“Moreover, if it is above the six-star warrior, then it may not be the seven-star warrior, but the top is not capped!”

“If Mr. Luo is really killed or controlled by him, then his cultivation base, as Master Jay said, has reached the dark realm!”

“Also! He chose the place to eat today, deliberately chosen to be in such a remote place, is it really just for me to taste the local characteristics?”

“Unfortunately, the surveillance video around the location he chose had a problem, and no valuable clues were found!”

“Moreover, Charlie didn’t always stay with me during the whole meal. He went out to answer the phone during this time! If he is a dark realm master, then the time to answer the phone is enough for him to act on Mr. Luo!”

Thinking of this, Fei Kexin felt that her heartbeat suddenly accelerated more than twice, and the intensity of her heartbeat was so strong that it even shook her chest painfully!

She knew very well in her heart that if her guess was correct, it would prove that everything Charlie showed in front of her was acting on the spot, and even deliberately confusing herself.

Feikexin suddenly panicked.

Charlie might only act in front of him, that is, he saw through himself and knew his true motives, so he wanted to give himself a plan.

Fei Kexin also knew that if he was really seen through by Charlie, it would prove that his mission to Aurous Hill this time had completely failed.

Moreover, it was not just that his plan to find Rejuvenation Pill failed, and even if Charlie knew his true identity, he might still be implicated in Grandpa's plan to participate in the auction normally.

If that's the case, wouldn't he have become a sinner in the eyes of grandpa? !

Thinking of this, Fei Kexin was as anxious as an ant on a hot pot.

What she feared most now was that Charlie not only noticed her own motives, but also discovered her identity as Fei Kexin.

If that were the case, he would be completely powerless to recover.

If Charlie only noticed his own motives, but did not discover his true identity, then there is still a glimmer of life in this matter.

After all, she and grandpa originally planned to adopt the double insurance method, even if their road is blocked, at least it will not affect grandpa's normal participation in the auction.

As long as Charlie doesn't know his true identity and he doesn't participate in the auction with his grandfather at that time, he can isolate the risk.

Thinking of this, she immediately picked up her mobile phone and called Grandpa Jian. As soon as the call was connected, she hurriedly said: "Grandpa, I am now at risk of exposure, so from now on until the auction ends, I will never contact you again, and you don't need to contact me. When you come to participate in the auction in a few days, I will bring another person in with you. I will not participate this time."

Jian asked in horror: "What's the matter? Is there something unexpected?"

"No." Fei Kexin said truthfully: "I am afraid that I have been exposed in front of the owner of the Rejuvenation Pill. I now suspect that he is the man behind Mr. Luo's disappearance. If this is the case, I might have offended him. Let him know the relationship between me and you, I'm afraid it will affect your participation in the auction."
