

The Ex Husbands Revenge

The Ex Husbands Revenge Chapter 2611-“Yeah, you are right. Strength is important. Cynthion Group may not have the support of powerful families, but the chairman, Leon Wolf, is quite terrifying.

That’s what makes Cynthion Group powerful!” Caleb said warily when he mentioned Leon.

“Terrifying? What’s there to be fear from a young brat? Dad, are you messing with US?” Jayden pouted with a contemptuous look.

He already learned from Hugo that Leon was young and considering his age, he could not possibly be that formidable.

Hence, he could not figure out why Caleb would describe Leon as terrifying.

“Yeah!” “Caleb, he’s just a kid.”

The elders agreed along and no one took a youngster like Leon seriously.

“You have all underestimated Leon! The third elder just informed me that Leon is formidable despite his age. Some time ago, the Southern Boss worked with the Hiltons and the Demon Lord to go against Leon. In the end, Leon killed the Demon Lord, and the Sotuehm Boss was severely injured as well. It was Hades who showed up and escaped with the Southern Boss.”

Caleb’s eyes widened and he suppressed his inner panic, before explaining what happened when Leon killed the Demon Lord and injured the Southern Boss.

What he said immediately caused a stir.

“What?” “How is that possible?”

Jayden and the elders snapped out of it and could not believe what they were hearing.

They all knew about the Southern Boss and the Demon Lord.

As the ruler of the underground community in the southern region, the Southern the two most powerful martial artists in the region.

The Demon Lord ranked third on the criminal list and though he was also in the Peak Almighty State.

Even Arthur and Caleb would fall short when compared to the Demon Lord.

It was hardly an exaggeration to say that the Southern Boss and the Demon Lord were the most formidable martial artists in both the Western and southern regions.

No one should be able to rival them when they work together, yet Leon managed to kill the Demon Lord and injure the Southern Boss on his own.

It even took having Hades get involved for the Southern Boss to narrowly escape Leon.

This was so unbelievable that they were all shaken.

Naturally, Hugo and Renee felt the same as well.

Hugo, who saw Leon before, knew that Hugh was actually Leon.

Leon was young when he first met him and Hugo did not know much about him.

All he could tell was that Leon had confidence about him which likely meant he was a brilliant martial artist. Still, he was likely weaker than most second generation or older-generation martial artists.

To his bewilderment, Leon's power exceeded his imagination. Even the Demon Lord and the Southern Boss lost to him.

If he did not hear this from Caleb, he would never have believed it to be true.

Renee, on the other hand, was just as taken aback.

When he heard from Hugo that Leon created the Cynthion Group and that he was extremely talented, she was curious about Leon.

However, she simply assumed Leon was someone like Hugo, which meant that he was one of the brightest of his generation.

To her surprise, Leon was much more than that and he even managed to defeat the Demon Lord and the Southern Boss.

This meant that Leon was far stronger than Hugo and she could not quite decide how she felt about it.

The Ex Husbands Revenge Chapter 2612--Wait, that's not right! I heard that the Southern Boss and the Spears were destroyed by the Thompsons! What does that have to do with Leon?" Jayden questioned.

The Spears were one of the most powerful forces in the southern region and the Southern Boss was the ruler of the underground community.

Ever since the Spears' downfall, the Southern Boss fled with severe injury and this caused quite a stir in the southern region.

However, since the Thompsons were involved and Leon preferred to keep a low profile, most people thought that the Thompsons were responsible.

The southern region was connected to the western region, so some of the more alert families in the western region already learned about the incident.

The Morrisons were no exception. Jayden caught rumors that the Southern Boss was missing and the Spears were destroyed a few days ago, but it was rumored to be the work of the Thompsons.

However, Caleb now claimed it was Leon who injured the Southern Boss.

This contradicted the rumors and Jayden was baffled.

"Yeah! Caleb, people are saying that the Thompsons did that. How is that related to Leon and Cynthion Group?" "Are you mistaken?"

Realization dawned on the elders.

They all heard that the Thompsons brought about the downfall of the Spears.

The Thompsons were the most powerful family and they were always at odds with the Southern Boss.

The Thompsons were just as influential and powerful as the Spears. Hence, it seemed believable that the Thompsons destroyed the Spears.

However, Leon was just a young boy with no powerful family to back him up.

Hence, they could not bring themselves to believe that he had what it took to defeat the Southern Boss.

They all just dismissed it as a misunderstanding as that was the only reasonable explanation.

“I’m not mistaken. I’ve heard that the Thompsons destroyed the Spears as well.

At first, I thought it was the work of the Thompsons as well. But when the third elder called me earlier, he emphasized that that was just speculation. The truth was that Leon defeated the Southern Boss and the Spears,” Caleb said.

“But, could the third elder be mistaken, then?” Jayden asked, unable to believe that a young boy had what it took to defeat the Southern Boss and the Spears.

“Yeah!” “Maybe he just got the wrong information!”

The elders agreed along.

The Ex Husbands Revenge Chapter 2613-“No. The third elder used to be friends with one of the elders in the Thompsons.

He learned the truth from that elder,” Caleb said sternly.

When the third elder reported his findings, Caleb reacted the same way and initially thought the third elder had the wrong information as well.

However, when it was revealed that this information was from one of the elders amongst the Thompsons, all doubts within Caleb vanished.

Since this elder was close with the third elder, there was no reason for him to lie.

On top of that, if the Thompsons were the ones who caused the Spears’ downfall, they could not possibly let a young man take all the credit.

It would be foolish for them to allow others to take credit for their work, and therefore, Caleb believed what the elder said without a doubt.

“But,” Jayden and the other elders were stunned.

They all knew that there may not be much truth to rumors and since the third elder got his information from an elder from the Thompsons, it was likely the truth.

This meant that it was Leon who defeated the Southern Boss and the Spears.

Shocked, they all started wondering how a young man like Leon accomplished such a thing.

“Also, according to what the third elder said, the Southern Boss worked with the Hiltons and the Demon Lord to take Leon down! Such a powerful combination isn’t something that the Thompsons could handle! They don’t have what it takes to kill the Demon Lord or defeat the Southern Boss,” Caleb added.

He knew that despite being the most powerful family in the southern region, the Hiltons and Spears were both powerful families as well that were just slightly weaker than the Thompsons.

If the two families worked together, they could easily destroy the Thompsons.

On top of that, they even had the Demon Lord on their side.

The Demon Lord was close to reaching the Peak Almighty State and even Caleb himself would not stand a chance against him, not to mention killing him and injuring the Sotuehm Boss at the same time.

Leon had to be extremely powerful or the Southern Boss would have never worked with the Hiltons and the Demon Lord to take him down.

This action alone was proof of how powerful Leon was and he was the only one who could injure the Sotuehrn Boss and lead the Thompsons to victory.

“Looks like it’s the work of Leon Wolf.” “Who exactly is this kid? He is too formidable!” The arrogant looks in the elders’ faces disappeared and they became more certain that Leon was the person who killed the Demon Lord and defeated the Spears.

All doubts were resolved and they finally realized they underestimated Cynthion Group and Leon.

The Ex Husbands Revenge Chapter 2614-“Yeah! Leon may be young, but he is insanely strong. I’ve never heard of such talent.” Caleb nodded, his expression growing warier by the moment.

He did not know which level Leon was in, but for him to kill the Demon Lord and injure the Southern Boss, he would have to be in the Peak Almighty State or above.

Considering his age, his talent was unmatched and unheard of.

Throughout the entire Sky County, even martial artists in the older generation would struggle to compare to Leon.

Caleb himself was one of the most powerful martial artists in the Western region Yet, he knew that he could only break even with the Demon Lord at best, so if Leon could take the Demon Lord down, he had to be much stronger than Caelb.

This alarmed Caleb and he was instantly overwhelmed by pressure. Terrified of Leon, he dared not to look down on Cynthion Group.

“Dad, what do we do now? If Leon is that formidable, we will need to reevaluate Cynthion Group and that vice president. We can’t afford to offend them again,”

Josiah said.

Like the others, he looked down on Leon and Cynthion Group before this as well. Hence, he did not object to Jayden with Hugo to meet with Hugh.

However, he instantly realized the issue after learning Leon’s true strength.

He did not know that Hugh was Leon, but he knew that Hugh came representing Cynthion Group to negotiate terms with the Morrisons. If they continued to undermine Hugh, they would be disrespecting Leon indirectly.

If this enraged Leon, it would not benefit the Morrisons.

“I know! I will go with Hugo to meet with Mister Wolf. We have to take this seriously!” Caleb said.

By the law of the jungle, Leon was far too powerful and Caleb dared not to look down on Cynthion Group any longer.

Hence, he decided to go to the hotel himself and that was why he stopped Hugo and Jayden to begin with.

“Hm, alright!” Hugo said before finally realizing what was happening.

The fact that Caleb was changing his mind worked perfectly in his favor and this was precisely what he wanted.

What Leon did to the Demon Lord and the Southern Boss was far too shocking and Hugo struggled to process the information even up until this moment. It was unbelievable that someone of Leon’s age could achieve such greatness.

However, he knew that Hugh was Leon and intended to ask Leon if what he heard was true when he had the chance.

The Ex Husbands Revenge Chapter 2615-“Dad, I want to go with you to the hotel to meet with Mister Wolf!” Jayden said.

After learning about Leon’s strength, he dared not to stop Caleb from going to meet Leon.

However, Leon was just a young man and he remained doubtful if someone of his age could actually be in the Peak Almighty state or above.

Hence, he decided to go with the others to see if he could ask Hugh about Leon to find out if what they knew was true.

“Grandfather, me too! I want to come along as well,” Renee said, her eyes bright.

She was already curious about Leon, to begin with, upon learning that Leon was likely a martial artist in the Peak Almighty State, she realized his ability surpassed her imagination.

Such insane talent shook her to the core and her curiosity toward Leon reached an all-time high. She desperately wanted to meet Leon, but she could not go all the way to the southern region to meet with him.

Therefore, she could only go to Hugh to ask him about Leon.

“Nonsense! Renee, your brother, and your grandfather are going to discuss business matters with Mister Wolf. Why are you tagging along?” Before Caleb could say anything, Josiah was the first to reprimand her.

“Dad, I’m not messing around. I was the one who helped Mister Wolf check into his hotel and accompanied him to Jaxon’s bouquet. We got along well. If I go with Grandfather, I can help ease the atmosphere and maybe we will be able to reach an agreement sooner.” Renee pouted.

“Well,” Josiah was instantly rendered speechless.

“That’s right! Renee, you can tag along if you want to!” Caleb said thoughtfully.

He knew that Renee’s words made sense.

Overlord State during the bouquet, and Renee proved it by showing her true energy to everyone.

If Leon was willing to offer such precious pills to help Renee, it meant that Leon had a rather good impression on her.

If Renee came with them, it may perhaps facilitate the negotiation.

As for Jayden, Caleb saw no reason to stop him from following since Renee was coming along as well. Hence, he allowed Jayden to follow as well.

With that, the four of them left and drove toward the hotel.

In a certain five-star hotel, Caleb and the others arrived and Renee led them up to the floor where Leon’s room was. However, as soon as they reached, they were shocked by the sight before them.
