

EVEN AFTER DEATH BY LILTING CHAMP

Chapter 1528

"Every murder has a motive. Jacqueline is our little princess. Why would she hurt her sibling? That doesn't make sense." Sean shook his head.

"Besides, she has been obedient since she was young." "Just that? She sounds average to me compared to your other siblings." The Fordhams, including the late Quinn, were good at numbers.

Troy could craft a dragon out of wood at the age of four, and Avery was a genius.

Jacqueline was relatively ordinary under her siblings' shadows.

"I think it's because she was a premature baby.

She has been weak since she was young.

She rarely joined cocurricular activities and indulged in hobbies.

"She was a late bloomer, but she worked hard ever since the day she could remember things. Even though she wasn't that bright, she put in effort.

"For example, our family could memorize a poem after listening to it once.

The average kid might need to listen to it five times, but she needs to listen to it about ten times. "Still, she never complains.

She'd repeat it 20 times until it was etched in her head.

She's the most hard-working person." His statement was aligned with the records.

Jacqueline worked hard to enroll in a prestigious school overseas.

She won many prizes.

However, compared to her talented siblings, who could easily reach their goals, she had to sacrifice ten times more than they did.

Someone like Jacqueline deserved respect. "Why did you keep staring at Troy, Dr. Fordham? Are you suspecting him? You stayed with him quite often these days. Did you find anything?" Instead of answering that question, she questioned back, "Do you think that he is the one?" "Nope.

Troy's been a reticent man since he was young. We're proud of her, too.

"Although she's an ordinary person, she works hard to make up for her lackings.

"She managed to study in a top international school without our help.

She does charity often and even travels far away to teach people.

"She also established a studio to round up talents and forked up her own money to research complicated diseases. "She's a strong and kind woman, helping many people out there.

They called her an angel.

| don't think someone as kind as her would be the mastermind." Sean sighed.

"Our parents loved each other very much, and we grew up in a loving environment.

I don't think it's one of us.

It could be our relatives." It wasn't that the possibility didn't occur to Avery and Olivia, but the family's unity rendered it difficult for outsiders to intervene in their household matters.

"So, things have been going well for Ms. Jacqueline. She didn't get into any trouble.

| asked Mr. Troy about it before he left.

He got into trouble several times over the past few years. "For instance, while he was flying to a fashion show, a madman on the plane demanded a detour.

"When they landed, the wings actually caught fire! If the plane had continued its journey, everyone on the plane would've been gone. Visit to read the latest chapter of this novel

"He also met with an accident when he was on his way to a meeting.

"Had he not made a detour because he left a design draft, he would've been involved in a serious car crash. Visit to read the latest chapter of this novel

He would've been dead that day!" Sean became concerned.

"Why didn't | know that?" "It's not only you.

Not even Mr. Avery knew this.

Alot of things happened under the roof.

| heard that your mother is ill.

"He didn't want to worry everyone, so he kept it to himself.

He brought it up because | asked.

"If what he said was true, the only person safe from trouble was Ms.

na

Jacqueline." "Just because she hadn't been hurt doesn't mean that she's the mastermind, though." Visit [to read the latest chapter of this novel](#)
