

Chapter 5592

Facing Victoria at this moment, they naturally did not dare to reveal anything. After all, the three of them are all descendants of the Wu family, descendants of Victoria,

And it was Victoria who brought them into the Tao.

It is a pity that they failed to break through the Niwan Palace after a hundred years of retreat,

But at most, it would take more than ten or twenty years.

A hundred years have passed with the flick of a finger, and ten or twenty years is nothing.

Therefore, Brovnen Wu said respectfully, "The Lord suddenly awakened the three of us."

"Presumably there must be an important task for the three of us to deal with."

"It is an honor for the three of us to share the worries for the Lord."

"I surrender to the will of the Lord!"

The other two also agreed. With one voice, they followed up and said, "I surrender to the will of the Lord!"

Victoria was very satisfied with the performance of the three of them at this time, What she wanted was the performance of the three of them obeying orders, Otherwise, she would not have taught the three of them to break the Niwan Palace of mind.

What's more, the method Victoria imparted to them was a little incomplete.

Although they have been in seclusion for a hundred years,

If Victoria did not provide external assistance in the last few years,

The three of them would not be able to break through the Niwan Palace no matter what.

Even if the Niwan Palace is right in front of them, even if it is only separated by the last layer of window paper,

Without Victoria, they will not be able to break through this last layer.

However, the three of them had no way of knowing this at the moment.

Therefore, from Victoria's point of view, if the three of them value cultivation more than her orders at this moment,

Then she should limit their final breakthrough, lest the three of them become more uncontrollable after breaking through the Niwan Palace.

Immediately, Victoria said to the three of them,

“Recently, we have encountered many foreign enemies in Warriors Den.”

“After you retreated, three of the four earls I trained have died,”

“But the identity of the enemy has not even been clarified yet.”

The expressions of three are all terrified.

They thought that there might be trouble with Warriors Den, but they didn’t expect it to be so troublesome.

Therefore, Brovnen Wu said without hesitation,

“My lord, the three of us are willing to relieve the lord’s worries!”

Victoria nodded slightly, and said, “Time is running out.”

“The three of you follow Revendor to prepare first.”

“There will be a plane in an hour. Send you to Aurous Hill.”

After finishing speaking, she turned around, called Revendor outside the door,

And said to the three of them, “This is Revendor Wu.”

At this moment, Revendor saluted the three of them very respectfully, and said with great respect,

“Revendor, the grandson of the Wu family, has met the three grandpas!”

Although Revendor is a junior, the three of them are very clear that they have retreated for a hundred years,

And they don’t know what the outside world is like.

In the future, they will inevitably rely on Revendor’s help in private.

Dealing with him will be unavoidable in the future, so naturally they will be less airy and more polite.

After the four of them exchanged greetings, Victoria said,

“Okay, we are all a family, and we can put aside the reminiscences later.”

“The three of you will go to Revendor to make preparations.”

“The journey will take at least twenty hours.”

“Whatever you want to know Revendor will explain to you.”

“What the world has become like in these 20 hours.”

After that, she asked Revendor, “Revendor, is it okay for the three elders to go directly to Aurous Hill by plane?”

Revendor hurriedly said, "Back to the Lord, I will follow your instructions."

"I will change the identity information of the three elders."

"I have the latest passport. The three elders will be able to enter the country smoothly!"

"Okay!" Victoria's expression was gloomy, and she said in a cold voice,

"You set off as soon as possible! After arriving in Aurous Hill,"

"Besides An family, anyone you suspect must also be killed!"

"Be sure to kill them all, absolutely not Leave any trouble behind!"

The four said in unison, "Lord! Your subordinates obey!"
