

Chapter 5116

Duncan thought of something at the moment and said:

"By the way, I have a question, You just said that the antidote will be taken after five days,"

"But the antidote will be sent to your station after four days."

"Don't the managers of the organization worry that if something goes wrong during the transportation,"

"The antidote will not be delivered in time? Will it not kill everyone?"

The leader of the Cavalry Guards shook his head and said,

"This is just a daily transportation process. Under normal circumstances,"

"The antidote is delivered one day in advance. As long as there is no accident,"

"It will not affect the time of taking the medicine. , It doesn't matter if there is an accident,"

"Commissioner has enough reserves for more than two months,"

"But these reserves will only be used in emergencies."

As he said that, he continued: "A few years ago, for some unknown reason,"

"The antidote did not come for three consecutive weeks."

"Those three weeks were solved by relying on the reserves of Commissioner,"

"But in the fourth week, the follow-up antidote was delivered."

Duncan hurriedly asked: "Do you know why there was no antidote for three weeks?"

The man replied: "It's not clear."

Duncan asked again: "For these three weeks, was the material transportation between you and Turkey terminated?"

"No." The man said: "The material transportation between us and Turkey is very stable,"

"And the freighter basically goes once a week."

Duncan nodded lightly, He opened his mouth and said:

"Since the connection with Turkey is normal, your antidote should not be processed in Turkey."

"Turkey should also be a transit. The problem is the line from the previous station to Turkey."

"It should be the one." The man said helplessly:

"We only know a little bit about many things, and don't understand the deep situation."

Duncan looked at Charlie and said seriously: "Master Wade,"

"If your plan can be successfully achieved this time, then I suggest that you must find an opportunity to follow the vine and take down the copper smelter in Turkey."

"The hierarchy of this organization is too strict,"

"And the information blockade is also very strict."

"Judging from this trend, I speculate that the resident Commissioner may not know too much,"

"And if they go up a level, they should be the copper smelter in Turkey, and the copper smelter must know more."

Charlie clicked nodded and said in agreement: "Inspector Li's analysis is very reasonable."

"The copper smelter should be the highest-level existence in this organization that we know so far."

Duncan said again: "Besides, the clue of the antidote is also Very important,"

"May 47 was stationed near Sri Lanka, and these Cavalry Guards stationed in Cyprus,"

"But the antidote they took were all of the same specifications,"

"Which was most likely processed by a processing factory,"

"And the antidote was processed here After batch processing in the factory,"

"It will be distributed from here to the world."

"If this is the case, then the distribution path of the antidote is an important clue to connect the entire organization!"

Duncan's words made Charlie's eyes light up.

The biggest impression this organization gave him was the clear division of internal levels.

And the extreme blocking of clues and information.

Moreover, many of the stations basically operate independently,

And are very secretive in themselves. Even if the stations are exposed,

They will not reveal accurate clues about the organization.

However, as Duncan said, if the antidote is produced intensively by this organization,

Then as long as he follows the clues of the antidote upward,

He will be able to find the specific location where the antidote was produced by the organization.

In addition, the antidote is of great significance to the organization.

Once the production site of the antidote is found, it is not far from finding the core of the organization.

Originally, Charlie's attitude towards this mysterious organization was to keep restraint as much as possible,

And only make precise sniper attacks on the global dispatch of its six aircraft.

However, after learning about the situation of the other party's residence in Cyprus,

He suddenly discovered that the management model of the dead man's residence seemed to be unbreakable,
