"What?" I ask him pulling my attention away from my tablet "Emma's tracker signal, It's gone," Jayden growls out slamming a bit too

When I stopped by to pick up our stuff the owner was surprised to see me again. Emma had been making it her mission to try and cook all our meals, so it

"What the hell do you mean it's gone, Jay?" Asher asks angrily standing and looking about ready to kill our friend

"It's gone offline. Which should not be possible." Jayden explains

"What could cause it?" I ask him

"The tracker works by satellite communication instead of radio signals which are detectable. Which means something has scrambled the signal or her tracker is destroyed." Jayden continues

"What do we do? Can we restart the program and try to sync with the

"Tm trying but the signal is gone," Jayden says before standing and clutching his laptop tightly

We all stop moving and watch him. He can be scary and unpredictable when he loses his temper and this is one of those times when we have no idea how

he will react. He loves Emma and if the one thing he hoped would keep us connected to her is gone, he is going to blow. As if summoning the darkness in

him, I watch him lift his laptop and throw it full force at the nearest wall. His expression doesn't shift once even at the sight of his laptop breaking into

Then he turns and walks out of the room without a word "This isn't good," Logan says turning back to us after watching Jayden leave. "He is going to do something stupid."

"We need to find him an outlet before he starts hurting people," Asher says jumping to his feet and pulling out his phone There is silence while we wait to see what he has in mind

"Hey Tony, do you have one?" Asher asks one of Devaro's trusted men

"What do they got?" Logan asks standing and leisurely stretching his arms above his head

"Let's gear up," Asher says leaving the room with Logan and me on his heels. CJ

We all head toward the stairs and split up to our rooms to get changed

"They have someone for Jay?" Logan asks with a smirk on his face

"Good, don't touch them. We will handle it. Okay, see you soon." |?

He gets too much pleasure from watching people be beaten to an inch

We all have a set look when it comes to crew business. We aren't just any thugs, we are four of the most deadly members of our crew, and we dress like it

With Emma gone, we're all on edge and this was the perfect chance to get some of that anger and frustration out

Jayden and I are not as bulky as Asher and Logan but with our gear, we look every bit as deadly as our brothers

I strap my vest tight to my chest and open the box I keep in the safe at the back of my closet. My weapons safe. Inside I have a variety of handguns, knives, the random granade, and a slew of bullets. I pick out my favorite gun, the Smith and Wesson M&P 9. It's new and angry looking but so far it's

As a precaution, I also add a few knives to my vest as well along with a couple of clips, ready and waiting. Who knows, maybe we can check up on a few

We pulled back a lot when she came, trying to be better men, but we needed this, or we would go crazy sitting around waiting to hear if she is okay

"Leo let's go!" Asher yells through my door after banging on it hard and loud
