

## Chapter 974 The Hoffman Family Today

---

Liam sneered and brushed off Shayla's words.

He didn't believe Shayla at all.

Shayla went on, "Given your situation, Liam, it might be wise to go in disguise next time. We're heading into a battle in the arena. Without a disguise, your true identity could lead to problems."

Liam's brow furrowed. Hiding his true self was never his style. Besides, the Saint Society was already his enemy. Why would he worry about their retaliation?

Even if his true identity were revealed, he would be ready to confront them head-on!

Noticing Liam's reluctance, Shayla paused, then added, "Remember, Adamson is on your tail, too. He's a level six Primogem Warrior, and you're not there yet. It might be smart to lay low for a while. Adamson has a lot of supporters here in Pleeyson."

Feeling the chill from the ice coffin behind him, Liam's expression turned grave. He wasn't scared of Adamson. His red armor was his trump card.

However, he had to protect Julie at all costs. No matter his strength, defending her from Adamson's

men would be a challenge.

Pondering over this, Liam finally agreed and changed his appearance in the airport's restroom.

When he emerged, they went to the Flame Gang's headquarters in Pleeeyson.

As they approached the main hall, Liam's expression turned into a deep frown.

He recognized the buildings they had passed by. He was certain he had lived here before!

This realization made Liam uneasy.

His discomfort only grew when, upon entering the main hall with Shayla, he noticed a group of people warmly greeting her. To his shock, the group's leader was Leandro!

Seeing Leandro clarified why the place had felt so familiar to him.

This was the Hoffman family's home, now under Leandro's control!

Anger surged through Liam, and he fixed a sharp glare on Shayla. If not for the risk of blowing his cover, he would have confronted her right then and there, demanding to know her intentions.

Shayla noticed Liam's stern look but remained unfazed, maintaining her smile. She went on to introduce him to Leandro and the Hoffman family

Upon hearing Shayla's words, Leandro's eyes sparkled with excitement.

It was rare for someone to be praised as powerful by Shayla. If they managed to get on his good side, the Hoffman family would surely rise in strength.

With this in mind, Leandro wore a sycophantic smile and moved closer, hoping to flatter Liam.

But Liam beat him to it. Concealing the sadness and fury in his gaze, Liam surveyed the main hall of the Hoffman family and remarked disdainfully, "This is the Hoffman family, one of the four major families? Why do its members seem so submissive? Trying to please their leader? Ridiculous! You all look like slaves from the black market, not at all like members of the prestigious Hoffman family!"

Liam was seething with rage.

It had never crossed his mind that these people would betray their own family just to serve the Saint Society.

What a disgrace!
