

The Ex Husbands Revenge Chapter 2796

The Ex Husbands Revenge Chapter 2796-“Grandpa, you can’t!” Candice and the others were all shocked and she immediately protested.

“Why not?” Elder Daglesh turned to her, clearly displeased that she kept questioning Leon.

“Grandpa, Wolf, Mister Wolf isn’t a proper doctor. He’s too young and his skills can’t possibly measure up to Doctor Otway’s! If he’s an amateur, he may cause your condition to worsen and the consequences would be unimaginable.”

Sensing his displeasure, Candice dared not to be rude but stood her ground.

She felt that Leon was unreliable and did not want him to treat Elder Daglesh.

“That won’t happen. Mister Wolf made it clear that he is confident about this! I trust him!” Elder Daglesh said, his tone unquestionable.

Despite Leon’s young age, he was the chairman of Cynthion Group and a martial artist in the Almighty state.

Given Leon’s ability, Leon would never make a promise if he was not certain about succeeding.

He would never risk harming Elder Daglesh and act recklessly, so Elder Daglesh was not worried.

“But,” Candice was reluctant to give up but was instantly interrupted by Elder Daglesh.

“That’s enough. It’s settled!” Elder Daglesh said decisively.

“Oh,” Seeing as Elder Daglesh made up his mind, Candice was rendered speechless.

She was not the only one concerned; the others felt the same.

However, since Elder Daglesh decided to give it a try, they could not protest any further as they did not want to anger him.

“Mister Wolf, I’ll leave it to you..” Elder Daglesh smiled at Leon.

“Sure! Don’t worry, Elder Daglesh. I will do my best,” Leon promised.

With that, Elder Daglesh stood and went to the empty spot behind the hall, before sitting down on the ground.

Leon started preparing for the treatment.

Hence, it was not necessary to treat him somewhere quiet.

On top of that, the Dagleshs did not trust Leon.

To prevent them from bothering him, he intended to treat Elder Daglesh in front of them so they could be more assured.

Indeed, the Dagleshs were all skeptical about Leon’s skills and worried that Elder Daglesh’s condition would worsen. As Leon began the treatment, they gathered around and watched him intently.

The Ex Husbands Revenge Chapter 2797-Once everything was in place, Leon started executing the Ghost Point, which worked to ease and suppress internal energy. This worked effectively with martial artists on the verge of losing control so it was perfect for Elder Daglesh.

“Elder Daglesh, fire up your energy now and work with me,” Leon gestured to Elder Daglesh to start training while sending his spiritual energy into Elder Daglesh’s body.

The two then worked together to slowly expel the chaotic energy within Elder Daglesh.

Long after, Elder Daglesh’s complexion started to improve and everything seemed to be going smoothly.

If everything went well, Leon just needed to work a little harder to expel all the impurity in Elder Daglesh’s energy.

However, the reality was cruel and an accident occurred just as Leon was about to succeed.

The impurity in Elder Dagleth's energy exploded.

Under this influence, Elder Dagleth's true energy spiraled out of control.

As his true energy spiraled into chaos, Elder Dagleth dared not to take this lightly and immediately tried to stabilize it.

Unfortunately, his mental state did not allow it. The more he tried, the more his energy acted up and he could not keep it down.

"Oh no!" Leon's expression darkened.

He immediately sent his spiritual energy into Elder Dagleth's body to control Elder Dagleth's true energy.

However, it was in vain.

underestimated the situation and forgot that his actual power was in the State that Elder Dagleth was in.

With limited ability, he could not possibly suppress the true energy within Elder Dagleth.

Baam!

Blood streamed down the corner of his mouth as he suffered internal injuries.

He opened his eyes abruptly and spat a mouthful of blood, completely losing his strength.

The Ex Husbands Revenge Chapter 2798-"Dad, Grandpa, what's wrong? Are you okay?" Mateo and the others were stunned when they saw Elder Dagleth spitting blood.

Without hesitation, they hurried over to help Elder Dagleth up but were stopped by Leon.

"Mister Dagleth, don't do anything. The chaotic energy within Elder Dagleth has been unleashed and he would soon lose control of his energy. Moving him would only make things worse," Leon said, his expression darkening.

He initially thought that Elder Daglesh's condition was not severe and that he should be able to cure him with ease. It was not until this moment that he realized Elder Daglesh's condition was worse than anticipated.

His lack of consideration caused the failure to expel the chaotic energy within Elder Daglesh and this caused a rebound.

Elder Daglesh would soon lose control of his energy if he was not mistaken.

"What?" The Dagleshs were all shaken.

"Wolf, this is your fault! You worsened my grandfather's condition. If something bad happens to him today, we will show you no mercy," Snapping out of it, Candice glared at Leon with rage.

She only questioned Leon repeatedly because she worried Leon's treatment would worsen Elder Daglesh's condition.

In the end, what she feared was what happened.

not only did he not cure Elder Daglesh, but he also pushed Elder Daglesh to the brink of losing control.

The situation was far worse than what she anticipated and she was furious.

Mateo, too, was furious and glared daggers at Leon.

Elder Daglesh was his father and the pillar of the Dagleshs, making him irreplaceable.

If Leon's treatment caused Elder Daglesh to lose control and thus his life, the Dagleshs would hunt Leon down.

"Mister Wolf, what should we do now?" Jensen suppressed his anxiety and asked worriedly.

Therefore, he did not blame Leon like the others.

On top of that, there was no point in blaming Leon while Edler Daglesh's life was hanging by a thread.

The Ex Husbands Revenge Chapter 2799-“Mister Daglesh, don’t panic! There’s been an accident, but I still have control over the situation. I have many means to cure Elder Daglesh, so don’t worry,”

Leon consoled him while thinking of a way to resolve the current situation.

He was not lying and there were indeed a lot of ways for him to cure Elder Daglesh.

He focused on a milder treatment in his attempt to expel the chaotic energy from Edler Daglesh’s body, but it failed in the end.

Naturally, treatment through the Ghost Point could be more aggressive as well.

Since a milder take failed, he would have to aggressively suppress the chaotic energy within Edler Daglesh through the Ghost Point.

This was not challenging for him, but adopting an aggressive treatment had its risks.

Even though he could cure Elder Daglesh, it may traumatize him in a certain way.

Elder Daglesh was old and his bodily functions were declining. If he was traumatized, he might get stuck in the Intermediate Almighty state, never to This was different from what Leon aimed to achieve. Hence, he was troubled as he contemplated whether he should adopt an aggressive method.

“That’s it!” Suddenly, an idea appeared in Leon’s head and he took out a Sun Pill. “Elder Daglesh, this is a Sun Pill. Take it. Maybe this will help.”

He then handed the Sun Pill to Elder Daglesh and gestured for him to take it.

Before Elder Daglesh could accept the pill, Candice intervened. “No!

Grandpa, you can’t take it. Leon doesn’t know what he’s doing and pushed you to the edge of losing control. If you continue to listen to him and take this pill, your condition may worsen and the consequences would be unimaginable,” she protested.

“That’s right! Mister Wolf cannot be relied on. I should go fetch Doctor Otway and he should be able to cure you,” Mateo chimed in.

He also doubted Leon after the minor failure earlier. There was no way that he would allow Leon to continue the treatment or he may end up killing Elder Daglesh.

“It’s fine! Accidents happen all the time. Though there were some unexpected twists, his treatment worked well for me. I believe that he would cure me,” Elder Daglesh’s voice was hoarse and his eyes were bloodshot.

The raging energy within him indicated that he was on the verge of losing control.

Still, his trust in Leon did not waver.

When Leon treated him through the Ghost Point, he could distinctively sense his energy slowly settling down.

However, Leon failed at the last moment.

The Ex Husbands Revenge Chapter 2800-“But,” Mateo and Candice panicked when they realized Elder Daglesh intended to keep accepting Leon’s treatment.

They wanted to talk Elder Daglesh out of it but were interrupted by him before they could say anything else.

“That’s the end of the discussion. It’s all fate and if Mister Wolf fails to treat me, it’d mean that I’m destined to go through this,” Elder Daglesh said.

He then accepted the Sun Pill from Leon and swallowed it.

The Sun Pill dissolved in his mouth and transformed into a stream of pure energy that coursed toward his heart.

Not daring to delay, he focused and started training again.

He attempted to absorb the pure energy to suppress the raging energy within him.

“Elder Daglesh, let me give you a hand!” Once Elder Daglesh took the pill, Leon strode over to him and through the Ghost Point, he sent his spiritual energy into Edler Daglesh’s body.

To prevent Elder Daglesh from developing a trauma toward training, he continued to use the Ghost Point to expel the chaotic energy within him.

If the pressure on the Ghost Point combined with the Sun Pill failed to cure Elder Daglesh, he would have to resort to more aggressive measures.

However, that would be his last resort.

“Damn it!” Mateo and Candice were both frustrated and resigned.

They could only watch Leon and Elder Daglesh worriedly, praying that Leon could cure Elder Daglesh.

Even if Leon failed, they would be content so long as Leon managed to stabilize Elder Daglesh’s condition.

However, the reality was cruel and something unexpected happened the next moment.

Just then, Elder Daglesh seemed to have lost control of his energy and spat blood once again.

They could no longer maintain their composure.

Candice already assumed that Leon was an arrogant amateur.

Instantly, worry and panic filled her heart.
