

The Ex Husbands Revenge Chapter 2808

The Ex Husbands Revenge Chapter 2808-“This isn’t a matter of odds! It’s all thanks to Mister Wolf. Mister Wolf, you’ve repay this debt to you,” Elder Daglesh suppressed his excitement and thanked Leon.

He knew that he was stuck in the Intermediate Almighty State for the longest This created a load on his mental state. If Leon did not diagnose him in time, his life would have been in danger once his condition worsened.

Now that Leon cured him, he practically saved Elder Daglesh’s life.

On the other hand, all leaders of powerful families dreamed of reaching the Not only did Leon save his life, but he also helped Elder Daglesh get to the Instantly, he was filled with gratitude toward Leon.

“Elder Daglesh, you’re welcome! It’s not that big a deal,” Leon said with a smile.

He did not anticipate that Elder Daglesh would have a breakthrough.

When he presented the Sun Pill to Elder Daglesh, he merely wanted to use the pure energy within the Sun Pill to expel the impurity in Edler Daglesh’s energy.

Almighty State because of that.

The Sun Pill was made from a supreme spiritual herb along with other precious herbs. It could get martial artists in the Semi-Almighty State to the Almighty State and there was a huge chance that it could help martial artists in the Almighty State past the barrier of their training.

Edler Daglesh reached the Intermediate Almighty State over a decade ago and Hence, it was normal that he managed to ascend to the next level using the Sun Pill.

“Mister Wolf, this may not be a big deal for you, but it is for us! I can’t ever repay you so just let US know whenever you need something in the future! We will do our best to deliver,” Elder Daglesh said sincerely.

He then bowed at Leon to express his gratitude.

“Elder Daglesh, don’t do that!” Leon was taken aback and tried to stop him.

After that, Elder Daglesh seemed to recall something and turned to glare at Mateo and Candice.

He knew that the two of them had initiated attacks at Leon to stop him, but was too preoccupied with the breakthrough to stop them.

If that happened, the consequences would be unimaginable.

The Ex Husbands Revenge Chapter 2809—"Well," Both Mateo and Candice felt ashamed.

Candice initially thought that Leon was a despicable man with no actual skills.

It was not until this moment that she realized she was wrong about him.

He was both a formidable martial artist and a skilled doctor who managed to cure Elder Daglesh within a short period.

His ability surpassed her imagination and it would not be an exaggeration to say that he was a hero.

Leon was hardly the despicable man she thought he was and this realization brought shame to her.

She was a prideful woman and could not bring herself to apologize to Leon even though Elder Daglesh demanded it.

Mateo, on the other hand, experienced enough and was far more flexible compared to Candice.

Upon learning that he misunderstood Leon, he instantly recognized his mistakes.

He then strode toward Leon and bowed. "Mister Wolf, I was wrong for offending you. Please forgive me," he said sincerely.

Seeing as her father apologized, Candice hesitated and gritted her teeth, before walking over to Leon.

Bowing, she apologized, "Mister Wolf, I'm sorry." "It's fine. It's just a misunderstanding." Leon smiled.

He was slightly annoyed that Mateo and Candice attacked him and came close to ruining the treatment.

However, the two of them were merely worried about Elder Daglesh and feared that he was not skilled enough.

It was normal. Now that they apologized and no actual damage was caused, he saw no reason to hold a grudge.

“Mister Wolf, you’re so forgiving. I admire you for that!” Mateo sighed a breath of relief.

After what happened, Leon’s skill in medicine and his formidable strength impressed him.

The Ex Husbands Revenge Chapter 2810

The Ex Husbands Revenge Chapter 2810-“Elder Daglesh, thank you. But the Emperor Herb is too valuable and I can’t accept it as a gift! How about I trade two Cleansing Pills for the Emperor Herb?”

Leon said thoughtfully, before taking out two white pills from a flask and handing them to Elder Daglesh.

You have done the Dagleshs a great favor. There’s nothing much we can do in return so just consider the Emperor Herb some sort of compensation. You don’t need to trade your pills for it,” Elder Daglesh said without accepting the pills.

He was going to give it to Leon for free, to begin with. Since Leon cured him and as it would not be enough to repay what Leon did for him.

Hence, there was no way that he would allow Leon to trade with pills.

“It’s fine, Elder Daglesh! Don’t reject my offer just yet. You can make your decision after hearing what the Cleansing Pills do!” Leon smiled.

Though he managed to cure Elder Daglesh, this was a different matter.

He always treated patients out of kindness and never accepted anything in return, so this would not be an exception.

He did not intend to accept the Emperor Herb as compensation for his treatment. Therefore, he intended to trade with two Cleansing Pills instead.

The Cleansing Pills were unique and could enhance talent for younger martial artists, so they were almost as effective as the Sun Pills.

Since Jensen helped Leon a few times, he had a great impression on Jensen.

By trading with the Cleansing Pills, he wanted to help Jensen as well.

This would only benefit the Daglehs in the future.

“What can these pills do?” Elder Dagleh asked in confusion.

The others all glanced at Leon in confusion as well.

“Here’s the thing, the Cleansing Pills are made from a supreme Spiritual herb, an Angel’s Fruit. It can enhance the talent of younger martial artists,” Leon explained.

Elder Dagleh and Jensen were more shocked than the others.

Talent was the foundation for training and it decided the limit of martial artists’ future achievement.

This was impossible to change as talent was inherited.
