

## The Ex Husbands Revenge Chapter 2869

The Ex Husbands Revenge Chapter 2869-“Dad, Felton is right. This is between him and Leon. The Morrisons have nothing to do with it. We don’t have to risk crossing the Western Boss over such a trivial matter,” Jayden said hastily.

He had some disputes with Leon over the collaboration in the past and since Hugo was the one who secured the partnership, Jayden’s position in the family was threatened. Hence, he was displeased with Leon all along.

Now that Felton was here to retaliate against Leon, it worked perfectly to his interest and he desperately wished Felton would teach Leon a lesson.

Therefore, he did not want Caleb to get involved and protect Leon.

He seized the chance to glance at the two elders behind him, hoping they would side with him.

“Yeah! Caleb, the Western Boss, and the Farmers are formidable.” “Besides, Mister Wolf is extremely powerful, so there’s no point for the Morrisons to get involved in this!”

The two elders hesitated before talking to Caleb.

They felt differently from Jayden.

Based on the investigation of Leon, they already knew that Leon was extremely With that considered, Felton and the Apostles were no match for Leon.

Hence, there was no reason for the Morrisons to go against Felton as they would risk crossing the Western Boss.

A direct conflict between the Farmers and the Morrisons would not benefit them.

“Well, that’s true,” Caleb said thoughtfully.

Upon hearing what Jayden and the elders had to say, he recalled how formidable Leon was and that he probably did not need protection.

On top of that, the Western Boss and the Farmers were just slightly weaker than the Morrisons in terms of power and influence. If Caleb defended Leon and fought Felton off, the situation would escalate to a direct conflict between the Farmers and the Morrisons.

Even if the Western Boss and the Farmers eventually lost to the Morrisons, the Morrisons would still suffer great losses.

This was hardly what Caleb wanted.

Hence, he was soon convinced by Jayden and the elders and intended to change his mind.

Unlike Caleb, she knew Leon quite well.

On top of that, the Western Boss was yet to show himself.

If Caleb listened to Jayden and the elders and gave up on protecting Leon, Leon would be outnumbered and likely suffer a horrible fate.

Given how she felt about Leon, there was no way she would allow him to face such danger.

The Ex Husbands Revenge Chapter 2870-“Well,” Caleb and the elders all fell silent.

They knew that Renee’s words were reasonable and that the Morrisons were supposed to be fully responsible for security.

Even if Felton and the Apostles could not defeat Leon, the Morrisons were not supposed to stand idly by while Felton destroyed the sales drive.

If they allowed this to happen, they would not be able to face Leon afterward.

Still, the Western Boss and the Farmers were a formidable force.

If the Morrisons sided with Leon to go against the Farmers, this would cause unpredictable losses to the Morrisons.

Instantly, the three of them were at a crossroads and did not know what to do.

“Grandpa, Renee is right. We can’t just stand idly by! Besides, the Western Boss is ambitious. Even if we choose to back down from this fight, it would just fuel their arrogance and the consequences can be unimaginable,” Hugo added to support Renee’s view.

“Well, that’s true.” Hugo’s words brought Caleb and the elders to a realization.

Caleb knew that the Farmers were always at odds with the Morrisons.

Though he did not wish to declare war against the Farmers over an outsider, Hugo was right.

The Western Boss was ambitious and a great threat to the Morrisons.

Even if the Morrisons refrained from fighting the Western Boss and the Farmers, the Western Boss would likely target them in the future as well.

They were destined to be enemies, so it seemed pointless for the Morrisons to be cautious.

It would be foolish of them to hold back.

Meanwhile, Leon observed the scene without leaping into action.

First of all, he mistakenly thought that Felton was leading the vanguard and that the Southern and Western Bosses would arrive afterward.

He did not attack Felton because he was waiting for the others to arrive.

Moreover, ever since he reached an agreement with Hugo, he was worried about whether Jayden’s existence would present a potential risk to the collaboration.

Out of consideration for the greater good, he intends to accept advice from Hugo and Renee to fight the Fermers alongside Leon.
