

The Ex Husbands Revenge

The Ex Husbands Revenge Chapter 2911-“Felton, it’s over. It’s about time we settle our scores!” Leon turned his sharp gaze at Felton.

“Leon, what, what are you going to do? You may have gotten lucky this time, but that’s nothing. If you know what’s best for yourself, you’ll let me and the Farmers go immediately or my father will have your head!”

Sensing the malicious intent from Leon, Felton shivered in fear.

He tried to threaten Leon as he struggled to get up from the ground.

However, he was too panicked and badly injured, stumbling, he could not get up and fell onto the ground again.

“The Western Boss, huh? Not a big deal. What a joke!” Leon scoffed at Felton’s threat.

He recalled what he needed to know and grabbed Felton by the collar, before picking him up with ease. His gaze was cold as he asked, “Felton, I have a few questions for you. Answer honestly and I may spare your life.”

“What- what kind of questions?” Intimidated by Leon’s gaze, Felton blurted out.

“Where’s the Southern Boss? Why did he and the Western Boss go?” Leon stared at him intently.

“What? How do you know about the Southern Boss?” Felton was stunned by the question.

The fact that the Southern Boss sought refuge with the Western Boss was a secret. The Southern Boss was cautious and rarely showed himself. Even the core members of the Farmers were unaware of the Southern Boss’s presence.

Yet, Leon somehow found out about the fact that the Southern Boss was with the Western Boss.

This completely caught him by surprise.

“If you commit a crime, you’ll eventually get caught! Well, where’s the Southern Boss? Hand him over and I can consider letting the Farmers go so you have a chance to change your ways,” Leon said coldly.

He came to the western region to take the Southern Boss down.

Given the grievances between him and the Southern Boss, one of them was bound to perish at the hands of the other.

Leon was a man of his word and would never go back on his words.

The Ex Husbands Revenge Chapter 2912-“I-” Felton paled, unsure of what to say.

He knew that his father and the Southern Boss went to the southern region to rescue Rodney.

Apart from that, the Southern Boss planned to capture Iris, Cynthia, and the others to blackmail Leon.

The Western Boss and the Southern Boss just left and may not have successfully executed their plan yet.

If he informed Leon about their intention, Leon would move his confidantes to another location ahead of time.

This may cause and their plan to fail and Felton was not about to do something so foolish.

Naturally, he was unaware that Iris and the others already arrived in the western region a few days ago and the Southern Boss’s plan was bound to fail.

If he had known about this, he would have felt different.

“What’s wrong? You don’t want to speak? Felton, I’m giving you a chance. You better take it!” Seeing the hesitant look on Felton’s face, Leon narrowed his eyes coldly.

“I don’t know,” Felton said.

Out of consideration for the greater good, he decided that he would never expose the Western Boss and the Southern Boss's intention or it may affect the plan.

"Why you! Very well! Felton, you asked for this. Let's see if you can be so stubborn after this!" Leon was enraged by Felton's stubbornness.

Without hesitation, he raised his leg and stomped hard on Felton's knee.

"What are you doing?" Felton was taken aback and before he could finish his sentence, agonizing pain pierced through his leg as Leon broke his kneecap.

Snap!

Following the sound of bones crushing, Felton wailed and his face twisted with pain as cold sweat drenched his clothes.

"Leon, you b*stard! How dare you break my leg! Just wait. I won't let this pass!" Felton's eyes were bloodshot as he shouted through the pain.

"You must have a death wish!" Leon's gaze grew colder and he twisted his foot on Felton's wounded knee.

The pain was insane and everything went black before Felton's eyes as he came close to fainting.

Naturally, he was not being overly arrogant.

Leon could never rival those two.

So long as Felton could endure the torture, the Western Boss and the Southern Boss would rescue Rodney and capture Leon's confidantes.

Once that was achieved, Leon would be at their mercy and Felton would return the pain he suffered by a hundredfold.

The Ex Husbands Revenge Chapter 2913-"You just won't give up. Since you have a death wish, I'll help you out!" Leon was deeply enraged that Felton refused to answer.

He raised his leg and was about to beat Felton until he broke when something surprising happened.

His phone rang and when he took it out, he realized it was a call from Fletcher.

Pausing the interrogation of Felton, Leon answered the call. "Hello, Fletcher.

What's up? Have you learned something?" Leon asked hastily, assuming that there was a new development on Fletcher's side.

"Yes, Mister Wolf. I've just received news from our men that they found the Western Boss and the Southern Boss. They led a group of skilled martial artists from the Farmers and drove from the western region to the southern region.

However, we don't know what they are trying to do yet," Fletcher reported.

"What? The Western Boss and the Southern Boss went to the Southern region.

Oh no! Could it be that the Southern Boss is going to the Thompsons' mansion to rescue Rodney?" Leon was shocked and realization soon dawned on him.

It was no wonder that the Western Boss and the Southern Boss were not present in the sales drive. They went to the southern region in secret.

Based on what he knew about the Southern Boss, he knew that the Southern Boss was plotting to retaliate against the Thompsons and rescue Rodney.

This seemed to be the only possible explanation.

"Damn it!" Once he figured out their intention, Leon instantly realized the severity of the situation.

Though the Thompsons were the most powerful family in the southern region in terms of strength and influence, both the Western Boss and the Southern Boss The Southern Boss recently robbed the Rainbow Flower from Jaxon.

Leon knew about the effect of the Rainbow Flower since he recently powered up using the Rainbow Fruit.

If that truly was the case, it would be extremely troublesome.

“Mister Wolf, what should we do now?” Fletcher asked.

The Ex Husbands Revenge Chapter 2914-“Fletcher, I just asked you and Howard to gather the Dragon Guards. How’s it going?” Leon suppressed his concern and asked.

“Oh, we’ve gathered about seven Platinum Dragon Guards in the Almighty State. Another dozen of Platinum Dragon Guards are on their way here. It’ll take them some time to get here.” Fletcher said.

Though the Dragon Corps was powerful, it was always understaffed.

Platinum Dragon Guards were mostly martial artists in the Almighty state.

Almighty State, they were quite formidable.

If the Dragon Corps wished to eliminate them, they would have to involve Dragon Guards in the Almighty State.

They were too rushed and many Dragon Guards were on other missions, so they could not gather at short notice.

It took their best effort to gather seven Platinum Dragon Guards in the Almighty State.

“Seven Platinum Dragon Guards in the Almighty State, huh? That should be enough. Fletcher, you will lead them to the southern region along with Henry right now. Don’t wait for the others! I am heading to the southern region right now. We’ll regroup on the way there and attempt to catch up to the Southern Boss!” Leon made the decision immediately.

With his overall strength reaching the Semi-Saint State, the Southern Boss would be no match for him even if he reached the Peak Almighty State.

Still, he had to exert all his strength on this mission.

The Southern Boss was cunning and had the help of the Western Boss and the Farmers.

If Leon was alone, he may be able to defeat the Western Boss and the Southern Boss, but the Southern Boss would also be capable of escaping and he might not be able to eliminate the Southern Boss.

With about seven Dragon Guards in the Almighty state aiding him, he should be able to succeed.

“Sure!” Fletcher said and hung up.

After Leon ended the call, Iris and the others noticed the grim look on his face and asked, “Leon, what’s wrong?” “What happened?” “Well, I just received news that the Western Boss and the Southern Boss led the Farmers to the Southern region. I think they’re targeting the Thompsons and attempting to rescue Rodney,” Leon explained briefly.

“What?” Iris and the others were taken aback.

Roanne was especially shocked because she was the eldest daughter of the Thompsons.

Meanwhile, Felton, who lay on the ground, was also shocked

The Ex Husbands Revenge Chapter 2915-“Leon, how did you find out that my dad and the Southern Boss are heading to the southern region?” Felton asked in disbelief.

He would rather endure torture than expose his father’s whereabouts. To his surprise, Leon somehow found out about where the Western Boss and the Southern Boss were.

On top of that, he even managed to guess their intentions and plans.

It was so surreal that he was shaken to the core.

“Iris, Cynthia, I need to go to the southern region to capture the Western Boss and the Southern Boss. I’ll leave the sales drive to you.” Leon ignored Felton and gave the women a few instructions, leaving them in charge of the sales drive.

Iris and Cynthia were the ones who hosted the first sales drive in the southern region. It was such a success that the two were later referred to as the Twin Beauties of the Southern Region.

With their experience, he trusted that they could handle the sales drive and was not concerned at all.

Both Iris and Cynthia felt hesitant when they heard what Leon had to say.

They were not hesitant because they were worried about their abilities to host the sales drive, but because they were worried about Leon.

After all, the Western Boss and the Southern Boss were both extremely powerful martial artists. The Formers, the Grimstons, and the Underwoods could not even compare to them.

Though they knew that Leon was powerful, they knew that Leon ran out of Potential Energy Forces.

Given how deeply they felt for Leon, they were worried for his safety.

Before Iris and Cynthia could speak, Roanne stood forward with a worried expression. "Leon, I want to go to the southern region with you."

The Thompsons were her family and she could not sit by while the Western Boss and the Southern Boss led an army against the Thompsons.

If possible, she wanted to go to the southern region with Leon.

"What? No way! Roanne, don't worry. The Thompsons are powerful and they'll all be safe! You don't have to come with me!" Leon was taken aback.

Seeing how worried Roanne was, he consoled her.

Despite what he said, he was not at all confident about the situation.

Once the Western Boss and the Southern Boss arrived at the Thompsons' mansion, a battle would break out.

Therefore, it was unknown if the Thompsons could fend off the Southern Boss
