

## Chapter 1078 Leif's Death

Santino aimed at Leif and swiftly released the bowstring.

Right after that, the arrow zoomed out of the bow with a thunderous sound.

The arrow struck Leif's left side, making blood spill out fast and causing him to get seriously hurt.

The Ghost Wolf saw its chance and struck back, making Leif cough up blood. The wolf also tried to use this chaos to make its escape.

Enraged by Santino's treacherous attack, Leif shouted furiously, "Santino! What are you doing? How dare you resort to such deceit! I will kill you!"

Although Leif was really angry, Santino just smirked and said, "Why are you acting so foolish, Leif? How could you trust anyone in this place? You've exposed your back to someone you shouldn't trust. Now, I'm going after the Ghost Wolf, Leif!"

Right after talking, Santino fired off another arrow. The arrow flew through the Ghost Wolf's body with a whooshing sound. Suddenly, the Ghost Wolf lost its energy and fell down lifeless.

With his plan working out, Santino's smirk became even more noticeable.

He moved closer, getting ready to grab the beast crystal from the Ghost Wolf's body.

At that moment, Leif was prepared and attempted to strike Santino's heart with full force.

But Santino saw it coming and easily pushed away Leif's fist without even looking.

Santino's expression grew icy, and his eyes showed disdain as he locked gazes with Leif. "I was planning to let you live since you're the key to obtaining this beast crystal. But it seems you really want to face your end."

Santino gave Leif a strong slap and then pulled out a dagger, stabbing it right into Leif's chest!

In an instant, blood started pouring from Leif's chest.

Leif looked weak, and his face turned pale. Even though he was weak, his rage couldn't be contained. He yelled at the team, "Kill Santino! What are you waiting for? Kill him now!"

Despite his command, none of his team members moved.

This failure had shown everyone that following Leif would lead to no good outcome.

The team members wouldn't fight for a loser like Leif.

Leif wore a bitter expression as he realized he had no support. He was on the verge of criticizing everyone

for their lack of compassion.

But before he could voice his frustration, Leif noticed a sudden flash of light.

A cold shiver ran down Leif's spine, and he felt his life draining away fast.

After witnessing Santino kill Leif, several members of Leif's group turned away and headed toward the exit of the Myriad Beasts Valley.

Some of Leif's team members even turned to Santino and begged, "Mr. Fowler, we want to join your team!"

Seeing the surrendering people, Santino chuckled proudly and said, "Alright! If you're interested in working with me, you're welcome to join my team! Don't worry. When I get something, you'll have a share!"

In the crowd, Liam's eyes turned icy cold. He didn't believe Santino's words. He understood that Santino wanted to bring more people to his team to shield himself during dangerous situations.

This was what the Saint Society was all about!

Everyone in the Saint Society did things for their own interests. The Saint Society was completely distinct from the Salvation Society in its essence.

Liam didn't step forward to confront Santino because he wasn't foolish. Besides, it would be easier for him to take action after Leif's death.
