

## Chapter 1091 Liam's Anger

As Liam looked at Shayla nearby, his eyes welled up with tears.

His gaze landed on the dog chain adorning Shayla's neck, taking in her disheveled appearance. It was clear to him that Shayla had been enduring hell lately.

A pang of sadness hit Liam as his nose twitched. He had never imagined Shayla would be in such a state after getting caught.

What made it worse was that Shayla had ended up like this all because she had tried to help him!

The weight of guilt settled on Liam as he pondered Shayla's plight.

At that moment, Laura noticed Liam's expression, sensing something amiss. Concerned, she leaned closer and asked, "What's wrong?"

Liam's eyes remained locked on Shayla, his fists clenched tightly as he spoke with a heavy heart. "That's my friend, Shayla Alvarado, in chains!"

Laura turned and finally noticed Shayla and her disheveled state.

Seeing Garrett holding the dog chain around Shayla's neck made Laura tremble with anger, unable to

contain her fury. "That guy is just plain cruel! Liam, he needs to pay for that!"

Liam nodded solemnly and responded with a touch of anger, "He'll pay for treating my friend like garbage! I'll kill him!"

Despite his boiling anger, Liam kept his composure. After thinking about it for a while, he suggested to Laura, "Let's start by joining Rodney's team. We need to figure out what we're up against with those captains. We can't act rashly. It will risk blowing our cover, leading us to a whole heap of trouble!"

Laura nodded in agreement and joined Rodney's team with Liam.

Rodney's heart sank seeing Liam and Laura approach. Frowning, he asked, "What happened? Why just you two? What happened to the rest of the team?"

Liam was already prepared for Rodney's inevitable question, so he had devised a response that skirted around the truth. With a calculated vagueness, he said, "During our time in Myriad Beasts Valley, Leif guided us on a quest to obtain the elusive beast crystal. Leif's choice also inadvertently drew a horde of wolves, led by a wolf king. This led to significant losses for our team. We barely escaped with our lives."

After a pause, he continued, "Despite surviving the ordeal, we ended up scattered. Prior to the wolf encounter, Leif entrusted me with a backpack containing a satellite phone. Unexpectedly receiving your message, my sister and I came here."

Rodney's frown vanished upon hearing Liam's words. He fully believed Liam.

Given Liam's current guise as Kolton, it made sense for him and his sister Zoya to be together.

Rodney's trust in Liam's words fueled a fiery rage, his face flushing red with fury. He couldn't contain his frustration, blurting out, "Leif, you moron! What possessed you to drag your team into Myriad Beasts Valley?"

Rodney wasn't defending Liam and the others; he was looking out for his own interests.

With Leif's team missing, executing his plan to secure the Universe Crystal Dew became challenging.

Rodney instructed Liam, "You can return to the team now."

To avoid catching Rodney's attention, Liam played the part of a disaster survivor. He feigned excitement to join the team with Laura.

After joining the team, Liam's gaze fell on Shayla. He clenched his fists and trembled slightly as he whispered to himself, "Shayla, hang in there. I'll save you soon!"
